When the statement came out, how er, and the reserve was shown to be below the required amount, prices went off, nearly, all the earlier gains being The market closed at about the lowest figures.

To-day's dealings, although active for the short day, were confined in volume and to a few of the specialties.

St. Paul was again the leader in the railway group, and for that matter the shole market, leading both in the advance scored and in the volume of the alings. It moved above 197, a new high record price.

Canadian Pacific also scored an advance of over two points, and, next to St. Paul, was one of the most active on the list. It was advanced on the report of heavy gains in earnings and inpreased profits from land sales. Other Railroads Strong.

Union Pacific and Raltimore and Ohio were also strong, at an advance over yesterday's closing prices. The former was bought on apparent inside information that there were good developments due almost any time now.

There was a cessation of pronounced activity in the Gould issues, although Wabash and Missouri Pacific held their gains of yesterday, while St. Louis and Southwestern broke below its low price of the last few days. All the hard coal stocks were barely

steady, with very little demand, but nsylvania advanced over a point in nection with the soft coal roads, which are benefiting by the strike.

Industrials Advanced. In the industrial group Leather common and the United States Rubber stocks were the features. They scored advances and held them throughout the

Comment on Shortage of Secretary Causes Action of Passaic Men. (Special to The Evening World.)

PASSAIC, N. J., Sept. 20 .- The direct ors of the Mutual Building and Loan Association of this city have resigned select names for a new board. The resignations were prompted by the comment of the stockholders, who blamed them for not being aware of the fact that ex-Secretary William Malcolm, who is now missing, was short \$115,000 in his ecounts. The report of the new Secretary show-

ed that the Association had a balance on hand of \$15,000, and it was agreed to fight the application made for a receiver on the grounds that the Association is that if a receiver for the Association is not appointed Malcolm's wrong-doing
